## WORLD HAPPENINGS BRIEFLY TOLD

Five hundred and fifty-three home-  
steads and eighteen soldiers' grants  
were filed on through the Dominion  
Land Office, at Edmonton, during the  
month of November.

Talking pictures are not yet favor-  
ed in Sweden. This has been revealed  
by the "Svenska Dagbladet," a morn-  
ing paper of Stockholm, through a  
national-wide symposium.

For the first time in 15 years, due  
to poor crops and general depression,  
the Moose Jaw poultry association  
will not stage its annual show. Decis-  
ion to this effect was reached at the  
last regular meeting.

The population of continental United  
States increased 14,299,000 in the  
ten years ended July 1, 1928, to 119,-  
306,000, the National Bureau of  
Economic Research, New York, has  
announced.

In Canada to study rail-roading, John  
Ke Choy, special representative of the  
Ministry of Railways, of the Chinese  
National Government, was a recent  
visitor at the headquarters of the  
Canadian Pacific Railway, Montreal.

Award of the 1929 Nobel prize for  
Literature to Thomas Mann was the  
fourth Nobel award to be given to a  
German. France is second in the list  
of winners with 23. Of the two score  
German prizes, 31 were for scientific  
achievement.

Diplomatic negotiations will be  
started shortly in an effort to induce  
the Chinese Government to rescind an  
order refusing permission to the  
Japan Air Transport Company to oper-  
ate mail and passenger aeroplanes  
between Japan and Shanghai. It is  
understood at Tokyo.

Announcement was made by Hon.  
W. H. Price, Ontario attorney-general,  
that the government would not  
launch prosecution against those  
named in the report of Gordon Wal-  
dron, K.C., commissioner who recent-  
ly investigated activities of the Amal-  
gamated Builders' Council in several  
cities under the Combines Investiga-  
tion Act.

### Modernizing China

Old-Style Chinese Lunar Calendar  
Gives Way To Newer Method  
China's modern battle between the  
Chinese style lunar calendar and the  
"foreign style calendar" entered a  
new phase, when, by order of the Na-  
tional government, documents framed  
according to the lunar calendar be-  
came no longer legal.

This is the most concrete attack yet  
made against the age-old Chinese  
method of reckoning passage of the  
months by the moons. Previous ef-  
forts to bring about universal adop-  
tion of the foreign or Gregorian cal-  
endar have proved futile, in spite of  
announcement of penalties even for  
the printing or possession of the old  
style calendar.

### Saskatchewan Lumber Industry

#### Millions Of Board Feet Of Lumber To Be Sawed This Winter

Between now and next spring 100,-  
000,000 board feet of lumber will be  
sawn from Saskatchewan logs and  
thousands of cords of fuel will be  
made available for sale. "It is  
difficult for prairie dwellers to appre-  
ciate fully the size of this northern  
industry," says the "Saskatchewan  
Farmer," which adds, in regard to  
improved lumbering methods and the  
saving of waste, "at least one indus-  
trial firm is talking of using hitherto  
discarded jackpine in the manufacture  
of creosoted fence posts and other  
materials."

The proprietor of a well-known ice-  
cream firm has gone bankrupt.  
He is up to his eye in debt.

### Frost Bites

Minard's restores circulation  
and eases the pain of cold  
clipped cheeks and ears.

W. H. U. 1230

### Ramifications Of War

#### Future Wars Will Be Carried On Against Civilians As Well As The Soldiers At The Front

In modern war it is not armies that  
are mobilized, but nations, and it is  
as important in a military sense to  
starve or bombard the women who  
are making shells in the factory as to  
kill the soldiers who are firing the  
shells. It is as important to cut off  
the food supplies from the people who  
make the munitions as it is to cut off  
the munitions supplies from the firing  
line. War in the future will not be,  
and cannot be, more humane than in  
the past; it must be immeasurably  
more humane, for not only has the  
"civilian" ceased to exist in the war  
sense, but the modern weapons of war,  
the airplane and the submarine,  
are especially adapted to carry de-  
struction beyond the theatre of war  
into the homes of the people.—A. G.  
Gardiner in the London Star.

### Result's Prove Satisfactory

#### Japanese Poultry Dealers Pleased With Hatching Eggs From B.C.

The Co-operative Association of  
Poultry Breeders, of British Colum-  
bia, reports remarkable success in the  
shipment of hatching eggs to Japan.  
A report just received from consigne-  
es the Oriental Poultry Estate,  
Utsunomiya, P.O. Chiba, Japan,  
states that out of the 45 eggs sent  
six months ago by the steamer "Em-  
press of Russia," 42 hatched out good  
chicks, and that there are now 22  
cockerels and 17 pullets, the latter  
starting to lay. The association be-  
lieves this to be a record for so long  
a journey, and states that the results  
testify to the great care taken in the  
transportation of the delicate consignment.

(By Anabelle Worthington).

### Where Danger Lies

#### Accidents Happen Often In Unexpected Ways Insurance

Those who lack courage for new  
enterprise, due to fears for their  
physical safety, should take heart  
from the records of a Pittsburgh in-  
surance company. If they hesitate re-  
garding crossing Sixth Avenue at Thirty-  
fourth Street, or put off from day to  
day their first airplane ride, a glance  
at reports of accidents which happen  
to people in the peaceful pursuit of a  
hundredth routine should make the  
avenue and the air seem safe by com-  
parison.

An official of the company was in-  
terested in compiling a list of the un-  
usual and unexpected hazards which  
keep so far out of their way that  
they find a victim. For fifteen years he  
kept record of them.

One man kicked a tire out of his  
shop and broke the bones in his own  
foot. Another chased a chicken  
through a barbed-wire fence, and  
while the fowl escaped, the pursuer  
was painfully hung up. Then there  
was the sad case of one who was so  
ardently embraced by a friend that a  
rib was fractured.

Another unlucky individual put in a  
claim for injuries sustained while rid-  
ing in a trolley car; a workmanman  
had thrown a shovel of hot as-  
phalt into the car and into the claim-  
ant's lap.

Talking a building to a friend in the  
lobby of a guileless might be consid-  
ered perfectly safe. Yet in just such  
places circumstances, the insurance  
company reports, a horse came charg-  
ing into the hall, and trod on the foot  
of one of the talkers.—New York  
Times.

### Recipes For This Week

(By Betty Barclay)

#### LEMON COCONUT FILLING

- 1 cup grated coconut.
- 1/4 teaspoon salt.
- 2 cups water.
- 1/2 cup lemon juice.
- 2 cups sugar.
- 7 tablespoons cornstarch.

Cook all ingredients together in  
double boiler for 45 minutes.

#### DEVIL'S FOOD

- 1/2 cup butter.
- 1 cup sugar.
- 2 egg yolks.
- 1/2 cup milk.
- 1/2 cup flour.
- 3 teaspoons baking powder.
- 2 egg whites.
- 2 squares chocolate.

Grated rind is orange.

Cream butter; add, gradually, one-  
half the sugar and melted chocolate.  
Beat yolks of eggs until thick and  
lemon-colored, and add gradually,  
the remaining sugar. Combine mix-  
tures, and add milk, alternating with  
sifted dry baking powder; then add  
whites of eggs, beaten stiff, and grad-  
ually orange rind. Bake forty-five to  
fifty minutes. Frost with boiled  
orange frosting. When frosting is  
cool, spread a thin layer of melted  
chocolate over the top.

### Expense Does Not Count

#### New York Hotel To Be Built First In Miniature

If the New Waldorf-Astoria, isn't  
everything it ought to be, architectu-  
rally, the fault won't be at the pro-  
jected caravanserai. Blue plans and  
architect's drawings may be all right,  
for some folk, but not for Lucia. He's  
hired a floor in a building in 45th  
street, and over a space of 6,500  
feet is having erected exact duplica-  
tions, on a smaller scale, of practi-  
cally every important structural unit  
of the new town. These will be fitted  
together and then Old Man Boomer  
will stand off and take a squint at  
the ensemble. Anything he doesn't  
like will be corrected before it's too  
late.

Another section of the floor space  
will be a prismatic stratum where  
interior decorators, artists and  
others will work out the color scheme  
of the new hotelery. Entire rooms  
will be reproduced and destroyed until  
the complete equipment receives a  
verdict of "not guilty" from the jury  
that is to decide how the hotel is to  
be presented to the public.

The cost of the experimental work  
will be \$200,000.

#### Devils Aids Motorists

To tell motorists whether they are  
on the road or headed for a ditch,  
a device called the "roadmeter" has  
been invented in England. It contains  
a level, and depends for its operation  
on the principle that most roads are  
graded to curve upwards at the cen-  
tre and slope off at the sides. The  
inventor claims that it will eliminate  
most of the accidents due to fog.

A rule may work both ways and  
still be a poor one.

### New Device For Lifeboats

#### Fires Projectile Two Hundred Feet and Releases Flare

Some of the best helpsmen of  
life boats at sea at night is likely to  
be relieved.

The army, the navy, the steamship  
inspection service of the U.S. Depart-  
ment of Commerce, and the Coast  
guard have under development a de-  
vice to that end.

With it a man can carry in his  
coat pocket the equivalent of a stand-  
ard lighthouse, two hundred feet  
high, with a light of fifty thousand  
candle power, with which to signal  
for help or guide rescue vessels.

The device resembles a big .45 cal-  
ibre pistol, although its barrel is a lit-  
tle fatter. It fires like a pistol and  
projects upward two hundred feet or  
more a projectile about the size of a  
big cannon cracker. This bursts and  
releases a fifty thousand candlepower  
flare, suspended from a parachute.

The suspended light burns thirty  
seconds and the pistol is designed to  
be reloaded with one hand so that  
any desired succession of lights or  
even a code of signals can be sent  
aloft.

Waves washing over the lifeboat or  
water swamping it have no effect on  
the reliability of the pistol. Its am-  
munition has been stored in salt  
water for more than twenty-four  
hours without effect.

### Scoff At Dry Year Forecast

#### University Of Saskatchewan Expects Little See No Room To Specu- late

Scientists at the University of Sas-  
katchewan, declined to accept the  
statement of Dr. Ralph Delury, of the  
National Observatory, regarding the  
probability of a series of dry years.  
Ra'nall is caused by the evaporation  
from the earth's surface caused by  
the heat of the sun, greater part  
being from that two-thirds of the  
surface of the globe occupied by the  
oceans.

If the heat is constant, the amount  
taken into the air each year is the  
same and the moisture that goes up  
into the air must come down. The  
various causes such as the shif-  
ting of the ice cap, may cause  
changes in the e/mate of certain  
areas, but the total precipitation is  
generally considered to vary very  
slightly.

### Germans Using New Fuel

A hundred thousand tons of mud  
fuel have been ordered by an electric-  
ity works on the Rhine. A German  
company has discovered how to make  
the mud in the bed of the River  
Emischer into a useful substitute for  
coal. For thousands of years rich  
combustible matter has been washed  
down the river from the Westphalian  
coalfields.

One bee-hive usually contains a  
queen, 300 to 400 drones, and 40,000  
workers.

San Marino, the world's smallest  
republic, has the second largest na-  
tional anthem in the world.

### SUNDAY SCHOOL LESSON

JANUARY 19 —

#### JESUS BEGINS HIS MINISTRY

Golden Text: "Repent ye; for the  
kingdom of heaven is at hand." —  
Matthew 4:17.

Lesson: Matthew 4:12-25.

Devotional Reading: Isaiah 9:2-7.

#### Explanations and Comments

The Kingdom of Heaven is At Hand,  
verse 17.—From the time of His  
coming to Capernaum, Jesus began to  
preach and to say, "Repent," change  
your minds, for the Kingdom of  
Heaven is at hand. The call to repent-  
ance was the message which he bade  
His disciples proclaim when He sent  
them out two and two to preach, and  
in His final words to His disciples  
after His resurrection, He said that  
repentance and remission of sin  
should be preached in His name unto  
all the nations.

For centuries the Jews had been  
looking forward to the coming of the  
Kingdom of Heaven, and by their  
phrases they meant the restoration of  
their nation to independence and pow-  
er under divine leadership. Jesus bade  
them to make a radical change in their  
way of thinking, and learn the truth  
which He sought to teach them, that  
the Kingdom of Heaven was not  
neither a geographical nor a political  
realm, but a spiritual realm. It is the  
kingdom of the Father's rule in the  
hearts of men.

The Threshing Ministry Of Jesus,  
verses 23-25.—In verse 23, Matthew  
makes a general statement of Jesus'  
teaching, and the Kingdom of Heaven  
teaching, and healing. He taught in the synagogues, for while  
sacrifices were offered only in the  
temple at Jerusalem, every town and  
village had its synagogue for worship.

He preached the gospel, or good news,  
of the Kingdom, and healed all kinds  
of sickness. His fame as a Physician  
spread throughout Syria, and from  
the Decapolis, and Judea, and beyond  
Jordan, people came bringing their  
sick ones for Him to cure. The word  
"epileptic," in verse 24, is "lunatic" in  
the King James' version. An epilep-  
tic was called a lunatic, from "luna,"  
the moon, because it was believed  
that his disease became worse during  
full phases of the moon. "Possessed  
with demons and epileptics, and  
palsied," is not found in the Sinaitic  
text. The words have been added  
here by a copyist to explain "divers  
diseases and torments."

Jesus' Ministry was an itinerant  
one.—He went about from place to  
place teaching, and preaching, and  
healing. The nature of His work made  
the fellowship and apprenticeship of  
disciples necessary. The prophets had  
taught the scholars, and the scholars  
had had their schools; it was a long  
established custom, but the need of a  
training-school was never as great as  
now. Jesus had many things to  
teach that only trained hearers could  
follow, because it was to do that only  
loyal pupils could undertake, a legacy  
of service to carry out.

#### A Mechanical Bellyboy

A mechanical bellyboy, recently  
brought over from Europe, was a novel  
feature of New Year's eve festivi-  
ties at one of the hotels in New York.  
It wrote the names of guests on an  
easel, made announcements and acted  
as assistant master of ceremonies  
during the entertainment.

Teacher.—Now tell me, what sort  
of people will wear the biggest  
crowns when they go to heaven?

Bright Pupil.—Those with the big-  
gest heads.

### "After Baby, Was Weak, Skinny, Gained 22 Lbs."

Trained Year old baby, Mrs. M. H. gained in 3 weeks, Horvath's, condition  
much improved. Baby lost 15 lbs. and  
gained 22 lbs. from drugless diet.

### Honor Intrepid Explorers

#### Memorial Erected In England In Memory Of John Horley and Companions

The Christian Diary now being pub-  
lished in the London Daily Mail, has  
attracted deep interest in the Old  
Country.

A memorial to Horley and his  
companions has been erected in the  
Northwich parish church, near the old  
home of his parents. Members of the  
Horley family and Mrs. Adlard,  
mother of Horley, were present at the  
ceremony.

The dedicatory prayer contained the  
words, "We dedicate this tablet to  
the heroic memory of thy servants,  
John Horley and Edgar, who sacri-  
ficed their lives in the cause of duty  
and honor."

The inscription on the tablet was:  
"This tablet is given to the memory  
of John Horley, M.C., an intrepid ex-  
plorer, who, on July 21, 1927, was  
found dead on the bank of the Khelon  
River, in Northern Canada, with two  
companions, Harold Adlard, 27 years  
old, and Edgar Christian, 18 years  
old. R.I.P."

The hymn, "Fight the Good Fight,"  
was sung. The tablet before the un-  
willing was covered with the Union  
Jack. The ceremony was performed  
by the Reverend J. Armistead, vicar  
of Sandbach, and a cousin of John  
Horley.

### Educative Blocks

Children are taught many of the  
words of foreign languages in an  
easy and interesting manner with the  
aid of a set of blocks now on the  
market. Each unit has different in-  
terchangeable words on the faces so  
that combinations appear as the  
blocks are turned.

There are twenty-six counties in  
southern Ireland, and six in northern  
Ireland.

### DO YOU SUFFER FROM CONSTIPATION?

Countless remedies are advertised  
for constipation. Many relieve for  
the moment but they are habit-form-  
ing and must be continued. Others  
contain calomel and dangerous min-  
eral drugs which do much harm to the  
system, settle in the joints and cause  
aches and pains. Some are harsh  
purgatives which irritate the bowels  
and leave a depressed after effect.

Avoid lubricating oils which only  
create the temporary effect and en-  
courage nature's machinery to become lazy.

A purely vegetable laxative such  
as the Little Liver Pills, gently  
touches the liver, bile starts to flow,  
the bowels move gently, the intestines  
are thoroughly cleansed, and constipa-  
tion persons pass away. The stomach,  
liver and bowels are now active and  
the system enjoys a real tonic effect.  
All druggists 25c and 75c red packages.

# WINDOLITE

The Improved  
Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

**THE** sun is the all-powerful life producer. Nature's universal disinfectant and germ-destroyer as well as a stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, but that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of pigs and is now being used in domestic and household requirements.

Price \$1.50 Per Square Yard, L.A.B. Toronto.

Use WINDOLITE and let  
**YOUR PLANTS**

## When Babies

Babies will cry, often for no apparent reason. You may not know what's wrong, but you can always give Castoria. This soon has your little one comforted; if not, you should call a doctor. Don't experiment with medicines intended for the stronger systems of adults! Most of those little upsets are soon soothed away by a little of this pleasant-tasting, gentle-acting children's remedy that children like.

It may be the stomach, or may be the little bowels. Or in the case of older children, a sluggish, constipated condition. Castoria is still

the thing to give. It is almost certain to clear up any minor ailment, and could by no possibility do the youngest child the slightest harm. So it's the first thing to think of when a child has a coated tongue, won't play, can't sleep, is fretful or out of sorts. Get the genuine; it always has Chas. H. Fletcher's signature on the package.

It's the unbreakable stage tradition! Grace followed "Al" toward his dressing room, to see that he reached it safely, but she did not enter. She realized he wanted to be alone with his grief and that he must concentrate and hurry with the utmost intensity to be ready for his call. But the look she had seen in his eyes made her fearfully afraid to have him try his songs tonight. He simply wasn't up to the ordeal of facing that crowd out in front and making them laugh. If he collapsed it might throw him back into the attitude of despair from which she had rescued him. Like a little sentinel Grace paced up and down before his dressing room door, her deep sympathy with Al in this tragic hour mingling with her fear for him.

Inside, Al sat before his dressing table making up with feverish rapidity. His watch was before him—he had four minutes before his call. A large framed photograph of himself stood at one side of the dressing table, but he did not let himself look at that. Every moment must be given to applying the black make-up. He had the make-up he would feel more the performer, ready to go ahead at any cost. Now the burnt cork was applied and streaks of red outlined and accentuated his lips; he slipped into his clothes and came from the room a moment after the call-boy's knock.

Grace faced him. "Al, you shouldn't try to go on tonight."

"I'll have to, Grace. The show's waiting—they expect me. I must."

He spoke desperately, trying to give himself strength and courage. Then he moved away, taking his usual place in the wings, waiting for his cue. He saw the stage manager, who was waiting for the show, a chorus of Tiller girls drifted by him, giggling and happy over the applause their precision dancing had received; the lights went off and on as an eccentric dancer leaped on the stage. Al clasped his hands tightly to it, all his trembling in a moment he would be out there himself. Grace was keeping out of his sight, but hovering near and watching him anxiously. She knew she couldn't stop him now, once his mind was fixed on going on.

Again the momentary darkness after the eccentric dancer finished his act, then a throb of apprehension on Al's part, as he heard the orchestra go into its music. Heaven, they were playing "Little Feller!" He had forgotten that the song had been reserved for his opening number. He put out his hand futilely, as if to stop them. Didn't they know he couldn't sing that song to the crowd?

(To Be Continued.)

Persian Balm—Invaluable to the whole family. To the mother, a flawless aid to loveliness. To the child, a soothing, healing balm. And to the father, a splendid hair fixative and cooling shaving lotion. Persian Balm tones and refreshes the skin. Makes hands delightfully soft and supple. Dispensable to dauntless women. A little Grace rubbing and it is absorbed by the tissues, making the skin truly rose-leaf in texture.

### The Conquering New Spirit

New Ideals Stronger Than the Old Spirit of Hate and Suspicion

The world is not losing its faith in ideals. It does not live by material things alone. It longs for palpable proof of the vitality of the higher values in human living. It is bringing forth this proof. The new spirit that is being exemplified in social and international relations is infinitely stronger than the old spirit of hate and suspicion, the spirit of narrow egoism and contempt for the right impulses of others. The new spirit is bound to conquer. Incontestably its victories in recent months have been notable.—Chicago Daily News.

European dancing is almost unknown among the Japanese, while drinking alcohol and smoking is prohibited by law to anyone under 21 years of age.

### PALPITATION

Throbbing of Heart After the "Flu"

Mrs. J. Cunningham, Sault Ste. Marie, Ont., writes:—"Last February I had a severe attack of influenza which left me with palpitation and throbbing of the heart. I felt very weak and tired so began to take

and used about six boxes and have found them helpful a great deal, and am very thankful for having found such a good medicine." Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### New Air Mail Rates

Schedule To Cover Service To Mackenzie River District

With the inauguration of regular air mail services to the Mackenzie River District, the deputy postmaster-general at Ottawa, has announced, through the weekly bulletin, a new schedule of rates.

In addition to the contract air mail service in operation to the district, the Canadian Airways, Limited, contractors, have been granted permission to convey by air on other than mail days, such mail as is offered by the public for conveyance by this service, provided the senders assume all risk.

The requirements for the air mail are:

1. "By air" mail to be prominently written on the address slip.

2. The usual Canada postage to be affixed on the address slip.

3. A special aerial sticker sold by the company or its agents representing a charge of 10 cents an ounce to be placed on the reverse side in payment of the special charge for transmission by aerial service, which has been fixed by those making the flight.

The new rates are as follows: Post office—Fort Chipewyan, Fort Fitzgerald, Fort Smith—Air parcel post rates: 50 cents a pound or fraction of a pound.

Post office—Fort Resolution, Hay River, Fort Providence—Air parcel post rates: 75 cents a pound or fraction of a pound.

Post office—Fort Simpson, Wrigley, Fort Norman, Fort Good Hope—Air parcel post rates: \$1.25 a pound or fraction of a pound.

Post office—Arctic Red River, Fort McPherson, Arlavin, Herschel Island—Air parcel post rates: \$1.50 a pound or fraction of a pound.

The above rates are subject to revision.

### Determines Shape Of Earth

Findings Of Canadian Scientist Most Accurate To Date

The earth is not round after all. It is flattened at the poles and has quite pronounced heaving about the middle.

A. H. Miller, a Canadian scientist attached to the Dominion observatory at Ottawa, has completed measurements this year which show the earth through the poles is 25 miles less than through the equator.

The difficult feat of determining the globe's true shape was accomplished with a pendulum swinging in a vacuum. It was carried to Berlin, Greenwich, Washington and back to Ottawa.

At each point the speed of the swing varied with the differing pulls of gravity. From these observations the delicate calculations were made. Mr. Miller's findings are considered by scientists as the most accurate to date.

Technically mother earth is not a sphere but an ellipsoid.

### Placing the Blame

Little Jimmy, against his father's warning, started to climb up on a table.

"Don't climb up there," his father said. "If you do, you'll fall, sure."

But Jimmy climbed up, and then down he fell.

As his father lifted him to his feet and wiped the tears from his eyes Jimmy bawled:

"It's all your fault—boo-boo—for not catching me. Why didn't you catch me? You knew I was going to fall—you said so."

Quite Was Skilled

While in Switzerland, a traveller was about to make an ascent, when he thought it might be well to inquire about the ability of his guide.

"Is he a thoroughly skilled climber?" he asked the hotel manager.

"I'll say he is," was the reply. "Why, he's lost two part of a tourist down the mountainside and came back without as much as a scratch himself."

"Should Bank be written with a capital B?"

"Of course: a bank is no good without a large capital."

Inhabitants of India used cotton cloth as hangings for their walls as early as the thirteenth century.

Mindart for the Ideal Builders

### Canada's Radio Stations

Many Of Eighty-One On List Are Privately Owned

The latest census of Canadian broadcast stations shows 81 on the list, of which number 18 are phantom stations. There have been few changes in the radio roster, the chief ones being the dropping of CNRQ, at Quebec, and the additions of CNRZ at Red Deer, Alberta, and CNRX at Toronto.

Canadian stations are owned principally by private companies. Thirteen belong to newspapers, six to grain brokers, three to religious organizations, thirteen to the Canadian National Railways, eight to radio societies and universities, fifteen to radio manufacturers and retailers, and the remainder to private individuals and diverse manufacturing companies.

### HOW TO RELIEVE CHILDREN'S COLDS

Avoid Serious Results By Using Baby's Own Tablets

When a child shows the first symptoms of a cold, such as sneezing, redness of the eyes, clogged or running nose, prompt measures for relief may avert serious results. Mothers should always have on hand some simple safe and effective remedy for immediate use.

Baby's Own Tablets act quickly, contain no opiates or narcotics, are safe for the eyes, clogged or running nose, prompt measures for relief may avert serious results. Mothers should always have on hand some simple safe and effective remedy for immediate use.

Baby's Own Tablets act quickly, contain no opiates or narcotics, are safe for the eyes, clogged or running nose, prompt measures for relief may avert serious results. Mothers should always have on hand some simple safe and effective remedy for immediate use.

Baby's Own Tablets are much easier to give a child than liquid medicine. I strongly recommend all mothers who have young children to keep a box of the Tablets in the house.

Baby's Own Tablets are sold by all medicine dealers or by mail at 55 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Demand For Free Homesteads

There is an increasing demand for free homestead lands in Western Canada. In the first ten months of this year, 14,586 entries for quarter-sections of 160 acres of homestead lands were made in the four Western Provinces—Manitoba, Saskatchewan, Alberta, and British Columbia—an increase of 3,065 over the corresponding period of last year. This year's entries represent a total of 2,293,760 acres.

Packing Plant For Brandon

The Swift Canadian Company is reported to have decided to erect at Brandon, an \$85,000 plant for the handling of poultry and dairy products. It is said that work on the building will begin this spring.

Falling Hair—Just try Minoxidil.

The Japanese gingko tree, which is becoming a popular ornamental tree, has no known disease or insect enemies.

Ship Frozen Fish

Large quantities of frozen fish are being shipped from Westbourne, Man., to all parts of Manitoba and Saskatchewan, by freight. The catch is reported to be the best in several years.

Needless Suffering

The next time a headache makes you stay at home—

Or some other ache or pain prevents your keeping an engagement—

Remember Aspirin! For there is scarcely any sort of pain it cannot relieve, and relieve promptly.

These tablets give real relief, or millions would not continue to take them. They are quite harmless, or the medical profession would not constantly prescribe them.

Don't be a martyr to unnecessary pain. To colds that might so easily be checked; to neuritis, neuralgia, to those pains peculiar to women; or any suffering for which Aspirin is such an effective antidote.

You need not hesitate to take Aspirin. It is safe. It is always the same. It never depresses the heart, so use it as often as needed; but the cause of any pain can be treated only by a doctor.

### Little Helps For This Week

"Joy and gladness shall be found therein, thanksgiving, and the voice of melody."—Isaiah 11, 3.

So brief the time to smile. Why darken we the air? With frowns and tears, the while we nurse despair?

Stand in the sunshine, sweet, And treasure every ray; Nor seek with stubborn feet The darkness way.

—Celia Thaxter.

I used to think it was great to disregard happiness, to pass on to a high goal, careless, disdainful of it. But now I see that there is nothing so great as to be capable of happiness, to pluck it out of 'each moment and whatever happens'; to find that one can ride as gay and buoyant on the angry, menacing, tumultuous waves of life as on those that glide and glitter under a clear sky; that it is not defeat and wretchedness which come out of the storms of adversity, but strength and calmness.—Ann Gilchrist.

The "Dotted Swiss" Girl

Might Look Funny Now But Were Sweet Once

Can it be true? They say that long skirts, dotted Swiss muslins, wide-brimmed hats, sashes, parasols and all the other fixings are coming back. Well, while we have no fault to find with the girl of today, mind you, we would like to see once more those beauteous creatures of the past.

We might not care to see them for long. One never knows how one may have changed. And memories of the long ago are never to be accepted at their full face value. There is a certain misty quality about them that is like star dust, and even so we would like to risk a look.

They might be funny, but they sure were sweet.

Corn cannot exist when Holloway's Corn Remover is applied to them, because it goes to the root and kills the growth.

Ship Frozen Fish

Large quantities of frozen fish are being shipped from Westbourne, Man., to all parts of Manitoba and Saskatchewan, by freight. The catch is reported to be the best in several years.

## The Singing Fool

By HUBERT DAHL  
Copyright, 1922, Warner Bros. Pictures, Inc.

### SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, marries Molly Winston, not knowing he is loved by Grace Farrell, a loyal little cigarette girl. After a time as a composer of popular songs, Molly slopes with John Perry, taking her baby, Junior, as she sails for France. Al, broken by the loss, becomes a derelict, but is saved by Grace Farrell, and recovers to appear in a Broadway revue. Molly obtains a Paris divorce, but Perry deserts her. Grace and Al plan marriage. One night as they reach the theatre where Al is appearing, a phone call comes from Molly, who has just returned to America, telling Al to rush to the hospital. Molly meets him.

### CHAPTER XXX.

"It's Junior," she said, and led him toward the little white room.

Al took one look at Molly's face of anguish and tip-toed toward the bed. Junior seemed to sense his father's presence, for he opened his eyes and gave a wan smile. As Al leaned over to kiss the tiny hands and feverish brow he saw how shrunken the little figure was that had once been so vital with health. He was dazed by the sight, for it was apparent that the hand of death was on Junior. But Al would let himself believe that.

He turned to Molly. "What—?"

But Molly wouldn't explain, nor could she meet Al's steady gaze, which grew more accusing every moment. She quickly walked into the hallway and Al followed.

"What have you done to him?" he demanded, eyes blazing with rage. "You didn't take care of him, you let him get sick!"

Suddenly Al's rage passed—this was no time for accusations. He heard Junior's voice call weakly. He ran back, dropping on his knees beside the bed. Then Junior, in a voice that was like a faint, poignant memory, said:

"Daddy—I missed you—awful much."

Al choked back the tears. "And Daddy missed you, too, Junior—awful much. But now you've come back—now you're going to get well soon and we'll never be separated again."

Junior tried to smile. That was nice, he thought, but somehow his

## FARMER'S WIFE GETS STRENGTH

By Taking Lydia E. Pinkham's Vegetable Compound

Wilton, Ont.—"I am taking Lydia E. Pinkham's Vegetable Compound through the change of life. It helps me and I cannot praise it too highly. I was troubled with heat flashes and my limbs were very weak so I could hardly walk to do my farm work. I saw in the newspapers your ad about the Vegetable Compound and thought to give it a trial. The first bottle gave me relief and I have told others what it does for me. I am willing for you to use my letter if you choose."—Mrs. D. B. Evans, Wilton, Ontario.

## FASCINATING LINKS IN

## CANADA'S HISTORY

There is a closed cabinet in the new wing to the Dominion Archives Building which contains four intensely interesting mementos of the early life in Canada. These are tunics, sash and stock worn by Brock when he fell fighting for his country in the year of 1812, and the shoes worn by General Wolfe when he was a baby.

The tunic which belonged to Brock is of the flaming scarlet color which the warriors wore in those days. It is bound in black and has gold buttons. The bullet hole over the heart is very noticeable, and it was the charge which was fatal to the brave soldier.

With the tunic was worn a plaid sash, which was a present from Tecumseh to Brock. He also wore a stock as it was called in those days, which reminds one of the Windsor ties worn by the school boys of about twenty years ago.

Brock's coat was sent to his relatives and in 1909 the Misses Tupper, nieces of Sir Isaac Brock, presented it to the Dominion Archives.

The little black shoes which were worn by General Wolfe were given by Mr. Thomas Wolfe, a relative of the general, to his cousin John Channell, of Newcastle-on-Tyne, and were presented by W. J. Presman Atkinson, grandson of the latter, to the Archives in September 1908.

These little mementos of early history in Canada, when seen as they were worn by these brave men, recall to mind the battles in which they engaged and the personal contact of seeing the tunic worn by Brock recalls the splendid achievement of a man, who, when he was killed, was in years, just a boy.—LX.

The members of Livingstone Lodge, K. of P., will hold a what drive and social in the hall on Friday night of next week.

## HON. C. A. DUNNING'S CAREER

The career of Hon. Charles A. Dunning, Canada's new minister of finance, is summarized as follows by the Ottawa Journal:

At 15, son of an English tenant farmer, he was an apprentice to an engineering firm.

At 17 he was an immigrant steerage passenger to Canada.

At 18 he was a western farm hand at \$10 a month.

At 19 he was homesteading, 25 miles north of Yorkton, Saskatchewan.

At 25 he was a director of the Saskatchewan Grain Growers' Association.

At 26 he was the organizer of the Saskatchewan Co-operative Company, now the largest elevator company in the world.

At 31 he was minister of railways in the Saskatchewan government.

At 37 he was premier of Saskatchewan.

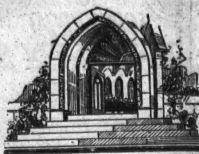

At 41 he was minister of railways and canals in the Dominion government.

At 44 he is called upon to become minister of finance, the second largest job in Canadian politics; called upon to handle and be responsible for more money than either Mr. Edward Beatty or Sir Henry Thornton or any other head of our greatest corporations.

Such is the story of Charles A. Dunning, up from a penniless immigrant farm hand to a post of honor and power. It is a story which, in its illustration of the truth that there are still glittering prizes for keen minds and stout hearts, has few parallels in the records of either politics or commerce.

An accident happened at the local mine washery last week end, by which Clarence Carmichael came very near losing both hands. In some manner the fingers of both hands became pinched in a pulley. He was quickly rescued and brought to the Stewart hospital, where upon examination it was found necessary to amputate a portion of the second finger of the right hand. Other fingers are doing well and Harvey is already able to be around, but it will be weeks before he can resume his employment.

Come and see the supreme test of mother love in "The Sacred Flame," featuring Pauline Frederick, at the Orpheum next Monday, Tuesday and Wednesday.

## BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services Sunday, January 19th, the Pastor in charge:

11 a.m.—SENIOR SCHOOL, for Young People over 12.  
2 p.m.—JUNIOR SCHOOL, for Children under 12.

7.30 p.m.—PUBLIC WORSHIP.  
The pastor will begin a series of sermons on the "Ten Commandments, in the year of Our Lord 1930."

The first of these will be given on Sunday night, subject: "The First Commandment—is this age truly a monotheistic age, as it thinks it is?"

ANNOUNCEMENT—The annual meeting of the congregation will be held in the church on Monday, January 20th, at 8 p.m. Reports will be received from all organizations, and officers elected for the ensuing year. A full attendance of all members and adherents of the church is requested.

HILLCREST UNITED CHURCH  
Pastor: Rev. J. W. Smith, B.D.  
Services every Sunday—  
11 a.m.—Junior School, for boys and girls under 12 years.  
2 p.m.—Senior School, for young people over 12 years.  
3 p.m.—Public Worship.

ST. LUKE'S, BLAIRMORE  
The annual meeting of the congregation of St. Luke's Anglican church will be held on Sunday evening next, January 19th, after the evening service, which takes place at 7 p.m.

It is important that all members make a special effort to attend this meeting.

—A. D. CURRIE, Rector  
INSTITUTE OF MANUAL TRAINING AND HOME ART

The following classes are offered this winter, and will be conducted if sufficient enroll. An entrance fee of \$1.00 will be charged for all classes. Apply at once to Rev. J. W. Smith.

1. Manual training, 1st year—General principles of woodwork, coping saw work, puzzle making, use of tools.

2. Manual training, 2nd year—Fitting and joining simple useful articles, model making.

3. English for new Canadians.  
These classes are open to any boy or girl or citizen of Blairmore.

Manual Training classes meet at Institute rooms on Thursday, 7 p.m. Jesso-Art-Craft to meet on Thursday, 2 to 6 p.m. also by appointment with the teacher Rev. J. W. Smith.

BROTHERLY SPIRIT  
The following is an extract from an article contained in a recent issue of an Ontario weekly paper:

"The love of money being the root of all evil. We require a finance in our Church, that will show the real B.S.

This would require as I see it each and every minister receiving the same salary under similar conditions and not as it is now, one minister receiving two or three times what his brother in the ministry is receiving, also it would require for each and every minister a salary in keeping with the times, having nothing to cover up, giving us the maximum salary as well as the minimum, allowing the B. S. to shine.

When the B. S. is lacking with our ministers it is lacking in our homes. When it is lacking in our homes it is lacking in our country. When we all lack it we will get again what we got in 1914."

Through the courtesy of Mr. Frank Bennett, we were introduced to Mr. Whiskers at Lundbreck a few days ago. Rumor has it that a reforestation scheme will be set in action about December 31, 1930.

The Altematt orchestra was very busy throughout the past five weeks playing for dances in every town of the Crows' Nest Pass and Lundbreck—having two engagements in Blairmore on Dec. 28th, one of which was ably taken care of by the Altematt sub-orchestra consisting of the Misses Frank Johnson, Gerry Frey and Ben. Pozzi, and Steve Machin and Chas. Couy. Vocal refrains by Barney Lyne, Joe Cardinal, Fred Paul and Jimmie Chalmers were greatly enjoyed by the dancers.

## SOMETHING TO WATCH

Slowly and cautiously Canadian daily papers are taking up the question of what may be expected by the new Border Patrol now being discussed by the United States.

The people of this country should keep themselves conversant with this movement, as it will directly affect them, if put into force.

It is to be hoped, of course, that some other method than armed forces can be devised to handle a situation that allows two per cent of the liquor estimated to be consumed in the States, by their own findings, to enter that country on a 4,000 mile front of a country that allows the sale of liquor.

We believe an aggressive educational program put before their own people would have better results.

Law and order seem to work along an inverse line to the number preserving that order. A large increase in members of the liquor squads may have a detrimental effect on people's moral ideas regarding this and other laws, that would counteract the good they can accomplish by holding down the people. A point of interest is the fact that we, in central Alberta, have 48 officers and men of the A.P.P. to handle all sorts of work amongst 225,000 people. By comparison, 10,000 men could handle an enormous amount of people for one crime, only, not to mention 10,000 men over and above those already working. Such ideas have been tried and, so far as we recollect, were not successful.

No matter how this subject is disposed of, it will be everybody's time to keep in touch with events and seriously study, both, action and hoped-for results.—Brooks Bulletin.

At the most critical period of the hockey game at Lethbridge on Saturday night, a member of the city team, a sheik to himself most beautiful, lost a golden opportunity to make good when he neglected the puck to adjust the highly-waxed locks on his cranium.

In the bonspiel at Blairmore. on Monday of this week, Rev. Father Donovan and his rink from Bellevue made 100 per cent, playing three games and losing three. Congratulations!

France is second to the United States in the production of motor cars. Some 500 makes are manufactured in that country.

Jim Ringland, received compliments galore from visiting curlers for the brand of ice he was producing. And Jim deserves them all, and then some.

The Greek physician, Hippocrates, writing in 460 B.C., warned against drinking iced waters in time of summer heat.

—To offset a rumor that has been circulated around Coleman to the effect that the Blairmore Moose had discontinued their Saturday night dances, we might state that the report is not correct and that it is the intention of the L.O.O.M. to continue and to endeavor to further warrant your patronage.

The tired business man arrived home. The cook had left that morning without serving notice. The market had slumped all day; and now he found a farewell note from his wife—she had eloped with the ice man. He knew that a shot would end all his troubles. So he opened the bottle and took one.

## Good Way To Find Out

The office boy entered the sanctum of the small-town newspaper and said: "Say, boss, there's a tramp outside who says he hasn't had anything to eat for six days."

"Bring him in," said the editor. "If we can find out how he does it we can run this paper for another week."

The proprietor, of a Montreal store stood in the editorial office of the newspaper, purple with indignation. "Look at my advertisement in your wretched paper!" he bellowed to the editor.

"Please be calm, and tell us what is wrong," said the editor, soothingly. "What's wrong?" cried the draper. "Why, I sent in an advertisement reading: 'We make men's wear,' and here you have put 'We make men's wear!'"

A party of Ottawa politicians decided on a few day's picnic and to camp out overnight. Not being used to this kind of life, one of the members brought his brother along to do the cooking, etc. That night when the brother had completed the many tasks which fell to his lot, he glanced around the camp fire for a seat, but the other members were crowding it so close that he had perforce to take a seat outside the circle where he shortly fell asleep. Awakened a little later the party asked him if he had slept well and when he replied in the negative, they wished to know the reason.

"Well," he replied, "I dreamt I died and went below."

"Yes," they replied, "and what was it like?"

"Just like this," he answered, "you couldn't get near the fire for politicians."

## Too Observing

"Be observing, my son," counseled Willie's father. "Cultivate the habit of seeing, and you will become a successful man."

"Yes," added Willie's uncle, "don't go through life like a blind man. Learn to use your eyes."

"Little boys who are observing get on much faster than those who are not," Aunt Jane put in.

The youngster took their advice to heart. A day passed, and once more he stood before the family council.

"Well, my son," said his father, "have you been using your eyes?" Willie nodded.

"Tell us what you've learned."

"Uncle Jim's got a bottle of whiskey hid behind his trunk," said Willie. "Aunt Jane's got an extra set of false teeth in her dresser, and pa's got a deck of cards and a box of chips hid behind Emerson's Essays in the bookcase."

"The little sneak!" exclaimed the family with one voice.

## THE PASS FIFTEEN YEARS AGO

(The Blairmore Enterprise, 1919)

May 8.—Alfred Rhodes, one of the pioneer settlers of the Poothills, died suddenly near Lundbreck on Tuesday. The remains were laid to rest at Blairmore on Thursday. He is survived by five sons, James, William, Daniel, Philip and Harold, all residing on the ranch, and one daughter, Lizzie, who is married and residing at Vancouver.

May 15.—Frank Haynes, convicted of murder, was hanged in Nova Scotia on Friday last.

At Monday night's meeting of the town council, Councillor W. A. Beebe's motion to purchase a nuisance ground from McLeod and Beard, did not receive a seconder and the matter fell through.

The following very interesting letter was at the same meeting received from C. DiCastro, bandmaster:

"To the mayor, Blairmore, Alta.: I wish to inform You that Mike (Dinos) and I are as the devil and cross, but Mr. Ross and W. A. Beebe are as brothers, sore the Band grant proposition it never will be settled until this matter will be held by Beebe who is under the power of Ross. By the town Clerk I been informed yesterday morning that you and councillors delegated W. Beebe to attend to it, so I went and see Beebe and only answer I had from him was that (according to his plan) the town councillors must hear SOME band and should hear SOME music. By all those were at the council meeting last Monday night I been informed that you and councillors showing themselves to be favor to the application that the band make. I want you and Councillors to decide about it and the band and I will considering satisfactory any kind of grant that you might will give for supply open air concerts every Sunday 8.30 p.m. during Summer. Hoping will you kindly taken the matter up and finds you well.

—DiCastro, band master."

The local opera house has been taken over by J. A. Osborne, of the Alberta hotel. We understand that he intends installing sectional floors to introduce roller skating.

The new Anglican church at Hillcrest will be opened and dedicated on Sunday next by His Lordship Bishop Hinkham, of Calgary, assisted by Rev. D. Watkins-Jones, of Coleman.

George Bradley, deputy mayor of Sentinel, was in town during the week.

The service at the Presbyterian church on Sunday night next will be for men only. The lady members of the congregation may wait outside, but must keep away from the windows and keyholes.

The general store of R. W. Morgan at Pincher City was destroyed by fire on Sunday evening.

THEY'RE

### A New Year Message of Peace

Radio, as a great unifying force in the national life of Canada, was again demonstrated on the second day of this new year when speeches by Hon. W. L. Mackenzie King, Sir Robert Borden, and General Jan Christian Smuts, former Prime Minister of South Africa, were broadcast over the Dominion from the Atlantic to the Pacific, enabling tens of thousands of Canadians to clearly hear every word spoken.

The importance from a national standpoint of Canadians being able to listen to such speeches, those given by Premier Mackenzie King, and General Smuts, can hardly be over-estimated. They not only serve to link Canada more closely to other self-governing units of the great British Commonwealth of Nations, but they likewise help our people to learn of Canada itself as it is seen and appreciated by world statesmen.

Many of the problems confronting South Africa in these early years of its autonomy as a self-governing Dominion, are similar to those which confronted young Canada and the Fathers of Confederation fifty and sixty years ago. In South Africa as in Canada, they have problems relating to the racial origin of the two major groups in the Commonwealth and inherent in which is the problem of language. In addition, South Africa has the problem of the native black races with whom, fortunately, we are free in this Dominion.

In his short address, Sir Robert Borden referred to the fact that Canada and South Africa, at the Peace Conference, appeared to have a clearer perception of the future of the Empire than did others of the Dominions. Canada and South Africa found themselves entirely in accord. Sir Robert Borden did not labor the point, nor did he take time to explain just why this should be so. It is not the reason quite self-evident. In Canada, at times, when from one cause or another, racial and language difficulties crop up, and disharmony is made of these differences and difficulties to inflame the passions and prejudices of people, the question is frequently asked in the English-speaking Provinces: Why should Canada be obliged to recognize the French language, and continue certain old French laws, when Australia is not so bound?

The answer is not far to seek. Canada, like South Africa, is a conquered country. It was originally a French possession, but was wrested by force of British arms from France, just as the Transvaal and the Orange Free State were wrested from the Boers. Australia, on the other hand, was colonized by English-speaking people. There was no conquest, except that over the native races. When France ceded Canada to Britain, and when the Boers laid down their arms in South Africa, treaties were negotiated between Britain on the one hand, and France and the old Boer republics on the other. In those treaties Britain solemnly pledged her national word and honor to the observance of certain things, and among these was recognition of certain racial, religious and language rights and privileges.

Accorded full Dominion status, the duty and responsibility of maintaining and observing both the letter and the spirit of these treaty obligations devolves upon Canada and South Africa. The national word and honor of these two Dominions is pledged just as solemnly as is that of Great Britain itself. And if Great Britain, Canada, South Africa, and the whole Empire was prepared to go to war and make all the sacrifices entailed in the great world struggle with Germany in order to keep Britain's pledged word guaranteeing the neutrality and independence of Belgium, how much more should all portions of the Empire loyalty, faithfully, generously, fulfill those obligations which alone made Confederation possible in Canada, and has made South Africa a loyal unit in the Empire?

In his speech, General Smuts dwelt at length upon Canada's leadership in the Empire, and the great contributions which this Dominion has made in the cause of national unity, Empire unity and solidarity, and world understanding. It was Canada's example which made union in South Africa possible. It was the example of the British Empire which made the League of Nations possible. The League being, as General Smuts pointed out, but the exemplification and extension of the same principles upon which the British Empire is founded and continues to exist and prosper.

Speaking of Canada, General Smuts used words which every Canadian should take to heart, and which, in concluding this article, we quote:

"You have taken the lead in many respects. You took the lead in racial settlement. The Prime Minister has referred to the confidence which our situation in South Africa. Our racial circumstances resemble your own. If we have reached a happy solution of our great racial question in South Africa, it is largely due to the precedent you have set. You found the first solution of the racial question and we have followed you, and the precedent you have set and which we are following. I hope will be followed more and more by other nations of the world, so that racial questions will cease to trouble the peace of the world and, instead of being a source of division, will become the bond of union between the nations of the earth."

#### A Consoling Thought

#### Novel Wall Decoration

It was necessary for taxation purposes to decide which side of the Canadian and the United States border a farm, which an old lady had just purchased, actually lay. Surveyors finally announced that the farm was just on the American side of the border. The old lady smiled with relief. "I'm so glad to know that," she said. "I've heard that winters in Canada are terribly severe."

The bagpipe was used by ancient musicians in Egypt and Greece. No tall to wag.

# Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best, the quickest, the most efficient way, is Phillips' Milk of Magnesia. It has been recommended for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids. The excess acids disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid again. Try it today. Please do that—for your own sake—now. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

#### A DISTINGUISHED VISITOR

General Jan Christian Smuts, P.C., C.H., former Premier of the Union of South Africa, probably the most picturesque figure of the great war and the great peace that followed it, photographed in the Windsor Station of the Canadian Pacific Railway on New Year's Day. This was the first time in his long career that he had crossed the Atlantic to visit this continent and to fulfill his intention of "seeing something of Canada and Canadians at home, and to get a living impression of the most important of the young British Dominions." While in Montreal he was admitted to an LL.D. Degree by the University of McGill.

#### Cheap Phonograph Records

New Chemical Composition Will Make It Possible To Produce Records To Sell At 15 Cents

Phonograph records selling at 15 cents each and retailing like magazines at newspaper stands throughout the United States, will go on the market soon, as the result of the discovery of a new chemical composition known as durium, according to an announcement made by Dr. Hal F. Beams, professor of chemistry at Columbia University.

A huge corporation, known as the Durium Products Corporation, already has been formed for the manufacture of records, the announcement said.

Discovery of the new composition was made after three years of experiment, according to Dr. Beams. Durium is liquid in its original form, he said, and is transformed by subjecting it to heat into an insoluble, fusible solid, which combines hardness and flexibility to a remarkable degree.

Records made from durium are priced on an ordinary printing press. A disc of fibre paper is covered with the substance, which is a clear golden color, resembling amber.

Miller's Worm Powders attack worms in the stomach and intestines at once, and no worm can come in contact with them and live. They also correct the unhealthy conditions in the digestive organs that invite and encourage worms, setting up reactions that are most beneficial to the growth of the child. They have attacked their power in hundreds of cases and at all times are thoroughly trustworthy.

#### Would Take Some Fixing

The following letter was received at the office of a railway mail service company: "Dear Sirs—The evening papers have not been coming regularly. Today I got yesterday's paper, and when I got yesterday's paper today, the next day I got the paper of the day before the day of the paper I got the day before. Last year I received the paper of the day before and never once was there a misce. Please fix it."

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy—Mother Graves' Worm Expeller.

The Crown Colony of Hong Kong was ceded by China to Great Britain in January, 1841.

Visitors to the English Parliament average 5,000 on ordinary days, and more than 20,000 every Saturday.

That More Throat Needs Mucilage.

## TAKE COD LIVER OIL AND LIKE IT

#### Book Brings Good Price

First Edition of Hawthorne's "Scarlet Letter" Worth Large Sum

To buy a book for \$1 and two days later receive an offer of \$1,200 for it was the good fortune of Mrs. Dora Hood, of Toronto.

Recently Mrs. Hood purchased a group of old books and discovered among them a first edition of Nathaniel Hawthorne's "Scarlet Letter," printed at Boston in 1850. The book is quoted in book-selling catalogues at prices ranging from \$1,000 to \$1,500.

Besides "The Scarlet Letter," Mrs. Hood found a first edition of "Marble Faun" by the same author, printed in 1860, and valued at \$100.

## WAS ALWAYS AILING NEVER FELT WELL

### Health Restored Through the Use of Dr. Williams' Pink Pills

"I am one of the many who have found new health through the use of Dr. Williams' Pink Pills," says Mrs. Everett Howe, South Nelson, N.B. "For some years I never felt well, and at times was so weak that I was unable to do my housework. At the very best I was in an ailing condition and found it difficult at all times to do my housework. I was subject to headaches, poor appetite, breathlessness at the least exertion, and very pale. Before Dr. Williams' Pink Pills were recommended to me I had tried several medicines, but had no good results. I had become completely discouraged and felt that I would always be an invalid. A friend strongly urged me to take Dr. Williams' Pink Pills, and finally I consented to do so, but without much hope. I found my appetite improving, I slept better at night, and my strength was gradually returning. I continued taking the pills for several months, when I again found myself a well woman, and I believe that had it not been for Dr. Williams' Pink Pills I would today be a helpless invalid. The pills have been taken by others in our family, with the same beneficial results. I strongly urge every weak woman to try this grand health-building medicine."

If you will send your name and address to The Dr. Williams' Medicine Co., Brockville, Ont., a little book, "Building Up the Blood," will be mailed to you postpaid. You can get these pills through any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

#### Madrid's Great Worry

Abandoned Donkeys Are Proving Problem For Spanish City

New York has the problem of disposing of abandoned automobiles, but in Madrid it's abandoned donkeys. Every once in a while a little donkey is found on the streets, either lost, or abandoned by an owner who could no longer afford to feed the animal.

The difference between an abandoned automobile and an abandoned donkey is that the automobile occupies space, but eats nothing, while the donkey does both. The City of Madrid spends quite a bit of money every time a donkey is found on its hands, and is therefore anxious to get rid of him as soon as possible. Auction sales are announced, but frequently no buyers are immediately found.

The Oil For the Athlete.—In rubbing down, the athlete will find Dr. Thomas' Electric Oil an excellent article. It renders the muscles and sinews pliable, takes the soreness out of them and strengthens them for strains that may be put upon them. It is found pre-eminent for this purpose, and athletes who for years have been using it can testify to its value as a lubricant.

For the first 10 months of the present year Canada's total exports were \$1,004,635,233. In the corresponding period of 1929 exports totalled \$1,070,000,245. The decrease in grain and flour exports are almost twice as much as the total decrease of all exports. The increase in manufactured goods largely offset the falling off in the grains.

Minard's Wards Off Grippe.

The United States ranks first among the countries exporting rayon hosiery to Egypt.

#### Safeguarding Life At Sea

Parliament Will Likely Deal With Problem At Next Session

Parliament at the forthcoming session will probably be asked to enact legislation on putting into effect some of the provisions of the convention which resulted from the "safety of life at sea conference." This was held last year and was attended by Alex. Johnson, deputy minister of marine. While the general provisions of the convention do not become effective until 1931, a number of them are considered of sufficient urgency to warrant their being adopted by the signatory governments at the earliest. This has particular bearing on radio apparatus. The convention agreed that henceforth ocean-going ships generally must carry wireless. It will be compulsory for passenger vessels and also for freighters of 1,600 tons and over. Each administration has discretion to exempt from this provision specified voyages where the administration is satisfied that these do not involve any hazard.

According to international agreement, a passenger ship is one which carries 12 passengers and over; but it is realized that there are circumstances under which small vessels would receive that classification. To operate without the remotest risk, ships would be exempt from the proposed legislation.

Hitherto one of the difficulties has been the equipping of freighters with radio apparatus. The cost of maintenance, involving, as it does, the payment of no fewer than three operators, is at times prohibitive. In order to meet this problem, however, the system which has devised an automatic system which reduces the number of freighter radio men to one. This invention makes it possible for a ship to receive an "S.O.S." in the form of a warning signal. The stricken vessel sends out its message in four second dashes, and this reaches the one-man radio equipped freighter by the ringing of a bell both in the signal-house and in the chartroom. Thus, if the operator is off duty, the officer on watch receives that warning signal and immediately is able to communicate that fact to the operator who can then proceed to his post and take the message.

The conference developed other requirements for safeguarding life at sea, but it is believed that only those dealing with radio will be taken up in the Canadian parliament this next session.

#### Settling the West

558 Families Settled Permanently On Canadian Farms By Colonization Association

A total of 558 families were settled permanently on Canadian farms in the first eleven months of 1929 by the Canada Colonization Association. It was stated at Saskatoon the other day: The total does not include those families placed as workers for other farmers, and which, if added, would raise the total to 1,210 families. The area covered by the permanent placements this year is 123,441 acres.

Winds are produced by differences in atmospheric pressure in various locations.

## Children's Colds

Best Treated Externally

That's why modern mothers prefer Vicks—it cannot upset delicate stomachs. Rubbed on throat and chest, it acts two ways at once:

(1) Its healing vapors, released by the body heat, are inhaled direct to the air passages;

(2) It "draws out" the soreness like an old-fashioned poultice.

acts 2 ways at once

VICKS VAPORUB

OVER 25 MILLION JARS USED YEARLY

World's Richest Country

In Wealth Per Capita Switzerland is in the Lead

The commonly accepted impression that the United States leads the world in per capita wealth is corrected by a table issued by a Wall-Street house. The United States stands in third place. Switzerland leads with a wealth per capita of \$3,126; New Zealand follows with \$3,029. The United States is third with \$2,908. Other important countries are not far behind. Canada following the United States with \$2,779; Australia, \$2,714; and Great Britain, \$2,677. At the tail of the procession is Russia, whose wealth is estimated at but \$215 to the head of population. Wealth is saved capital and statistics show that a people with little wealth may still be prosperous, even though living costs are relatively high.

Don't Submit To Asthma. If you suffer without hope of breaking the chains which bind you do not put off another day the purchase of Dr. J. D. Kellogg's Remedy. A trial will drive away all doubt as to its efficiency. The sure relief that comes will convince you more than anything that can be written. When help is so sure, why suffer? This matchless remedy is sold by dealers everywhere.

Alberta Oil

More than 200 wells have been drilled or are drilling in Alberta, and these are under way starting at least 50 more in the spring. To the Valley accounts for 37,000 barrels of crude naphtha per month, and 200,000,000 cubic feet of natural gas daily.

HUNTER-MARTIN & CO., REGINA, SASK.

## THINKS FEDERAL AID SHOULD BE FORTHCOMING

Edmonton.—A statement issued in Ottawa by Hon. Peter Heenan, Minister of Labor, to the effect that unemployment conditions and relief measures are entirely a provincial and municipal responsibility, is challenged by Premier Brownlee. Mr. Heenan had said that at the Dominion provincial conference in 1927 this position had been recognized by the provinces, whose representatives had made clear that they did not wish the Federal Government to engage in such measures.

To this Mr. Brownlee answers that he has no recollection of any such attitude being taken in behalf of the provinces, and that the latter had strongly objected to the Dominion acting in such questions without consultation. The position of Alberta in the matter was again intimated to Hon. Mackenzie King on the recent visit to Ottawa.

"Under normal circumstances," says the Alberta premier, "unemployment relief might be dealt with as a provincial and municipal issue, but there do come times when because of national considerations all governments should join in sharing the burden. The unemployment of the present season is a case in point. It is not due to local circumstances but arises from national conditions and it is therefore a sound argument that all governmental organizations should at such a time forget the neat distinctions of the B.N.A. and see how best they can together share the common responsibility."

Over 72 per cent. of the men now being given unemployment relief have been found to have come to Canada within the last five years, and the majority to have been here less than five years. A fairly large number of them have come during the past year despite strong representations by the provincial government that immigrants of that type were not wanted under existing conditions. Premier Brownlee gives this as the outcome of the check-up that has been made of the unemployed men who have registered with the relief bureau and he regards it as an effective answer to the argument of the Dominion authorities for the unemployment situation.

"On the immigration question we are subject," he said, "to Dominion policies and measures, and it does seem inconsistent that the Dominion should take the position there is no federal financial responsibility."

### Optimistic Over Parley

British Premier Thinks Prospects For Naval Agreement Bright

Louisbourg, Newfoundland.—Prime Minister Ramsay MacDonald, who has returned to London after a fortnight's holiday in his Scottish home, is full of optimism over the prospects for the five power naval disarmament conference. He said that arrangements were well advanced for the meeting, which opens on January 21. "I feel very optimistic about the prospects. There is no use in shouting before it is over. There are one or two difficult matters which divide the different countries of the conference, but see no reason for fearing that an arrangement will not be reached."

Asked whether the government proposed limiting the size of battleships to the tonnage of the earliest dreadnought, "We shall deal with every class sought models, the prime minister's refusal of warship from dreadnought to submarine."

"Things are very well advanced. We know that there are little points where we have not agreed, but none of them are of such great importance that an agreement is impossible."

### Urges Recognition Of Canadian Race

United Farmers Of Manitoba Submit Report At Convention

Brandon, Man.—Recognition of the existence of a Canadian race was strongly favored in the report on legislation submitted to the annual convention of the United Farmers and Farm Women of Manitoba. It was pointed out that while the word "Canadian" is now to be accepted in census forms under the heading of "Nationality" it is not a permissible entry as a racial or tribal origin. The report contends that many of the races accepted under this heading are of a more polyglot origin than the present Canadian race.

### Canada and U.S. Air Mail

Four Direct Contacts To Be Established Between Systems Of Two Countries

Ottawa.—Closer co-operation between the Canadian and United States postal services relative to air mail, and an extension of the air mail systems of both countries in the West are matters which have brought W. J. Irving Glover, second assistant postmaster-general of the United States to Ottawa.

Mr. Glover, who is in charge of air mail and water transportation of mail in the neighboring republic, was conferring with Canadian postal officials. Of immediate concern was the inauguration of the new Canadian prairie service, which goes into commission early in February. Negotiations are on foot to link this up with the United States midwest system and the next international development, according to Mr. Glover, will be an air mail line from Minneapolis and St. Paul to Winnipeg, via Fargo and Grand Forks, N.D.

Subsequently this will be supplemented by a line from Great Falls, Mont., to Regina, Sask.

Four direct contacts will thus be established between the air mail systems of the two countries—Montreal and Albany; Toronto and Buffalo; Winnipeg and Minneapolis; and Regina and Great Falls.

Mr. Glover spoke in terms of high praise of the rapid development of the Canadian air mail services.

The officials of the United States were proud of the progress that Canada was making in aerial enterprises and watched that progress closely and with friendly interest. For a nation of such scattered population in a territory that so vast Canada had accomplished things that compelled the admiration of the world.

Urges Conference On Status Of India

Gandhi Says Conference Would Respond Gladly To Invitation

Armadillo Bay, India.—"The time must come when there may be a fight to the finish with our backs to the wall," said Mahatma Gandhi, noted Indian nationalist leader, writing in the newspaper Young India. Gandhi says he believes if the British Government should invite the Indian National Congress to discuss and form a scheme for the future of India, the congress would respond gladly.

"There must be a conference at some stage or other," Gandhi writes. "Whether such time be far or near depends upon how we utilize or waste the year of grace."

The Nationalist leader said he did not see the atmosphere today for a campaign of civil disobedience.

If the British Government invited the Nationalist congress to a conference to discuss and frame, not any scheme but a scheme definitely for an independent government, and if it fulfills other conditions as to table to such a conference, takes it the leaders of the congress would respond gladly to the offer of such a conference."

Dominion Debt Lower

Financial Report Issued At Ottawa Shows Substantial Drop

Ottawa.—The three-quarter mark in the present fiscal year finds Canada with increased revenues increased expenditures and a substantial drop in the net debt of the Dominion. The financial statement issued through the department of finance shows total ordinary revenue of the Dominion as amounting to \$351,257,325 for the nine months of the present fiscal year which closed on Dec. 31 last.

For the corresponding nine months period of the preceding fiscal year ordinary revenues totalled \$346,282,544. The increase therefore amounts to \$6,004,731.

Mounties End Long Chase

Chinese Convicted In Vancouver Traced Over Thousand Miles

Chicago.—After a thousand mile chase through Western Canada and the western United States, Wong Wa, Chinese, who was convicted of peddling narcotic drugs in Vancouver, in 1928, was in custody here through the efforts of the Royal Canadian Mounted Police. Wong Wa fled from Vancouver after his conviction, forfeit \$10,000 bail, and fled through Seattle east to Dakota and back into Canada, the Canadian officers said. He was traced to Winnipeg, Windsor, Detroit and finally to Chicago where extradition proceedings will be taken.

Kidnap Chinese Commander

Poo Chow, China.—Yang Shu Chang, commander of the Chinese navy and five members of the Fukien provincial government were kidnaped at an official dinner by a gang of bandits, who held them in the dining room and held up the guests with revolvers.

### Four Aviators Killed

Members Of Royal Air Force Meet Death In Collision

London, England.—The British Air Ministry announces that four members of the Royal Air Force had been killed at Abu Suier, Egypt, in a collision of two aeroplanes in mid-air.

The officers who were piloting the machines were Flight Lt. Richard S. Greenleaf, and Flying Officer Charles E. Galpin. The two other victims were non-commissioned men.

The crash was the first fatal one in the Royal Air Force this year. Last year there were 42 deaths in the Royal Air Force in flying accidents.

### Men Scramble For Jobs

Two Thousand Men In Frantic Fight For Work In Liverpool

London, England.—An answer to those who think the unemployed prefer the dole to work was given in Liverpool, where 2,000 men were so frantic in a fight for the work of unloading the steamer "Oropesa" that they broke up the stands in their rush.

When the foreman appeared there was a stampede of men who fought and scrambled to get in front, and it was some time before order was restored.

### OFFICIALS OF WHEAT POOL GOING TO LONDON

Winnipeg.—Officials of the Canadian Wheat Pool are to meet in conference at London, England, with members of the British Government, it was announced recently. Three representatives of the co-operative organization are leaving Winnipeg to confer with Right Hon. J. H. Thomas, Lord Privy Seal and Minister of Employment, in the British Government.

According to the announcement from Pool headquarters, the London party comes as result of an invitation extended by Mr. Thomas at London, England, last September, when he conferred with Wheat Pool heads. The Pool representatives at London will be A. J. McPhail, president of the Canadian Pool; D. R. McIntyre, eastern sales manager; and W. A. MacLeod, director of education and publicity for the Canadian Pool.

While the Pool statement does not mention the subject of the conference it points out that Mr. Thomas' main purpose in his visit to Canada last summer was to explore every avenue for securing a more uniform flow of outward and return cargoes from Canada and the United Kingdom. Various suggestions, it is mentioned, were discussed with Pool representatives for securing a more even and regular movement of Canadian wheat to British ports.

During their stay in the Old Country, the Pool representatives will meet Henry J. May, secretary, and Sir Thomas Allen, director of the International Co-operative v. Alliance, in connection with a proposed conference of producers' and consumers' co-operative organizations to be held next spring.

### ASSISTANT COMMISSIONER

C. A. Van Scoy, newly-appointed Assistant Commissioner, Department of Immigration and Colonization, Canadian Pacific Railway, Montreal. He succeeds J. N. K. Macallister, who is now Chief Commissioner of the Department. For the past four years Mr. Van Scoy has been superintendent of Colonization for the Canadian Pacific at Winnipeg, in charge of Western Canadian and United States offices, and has had seventeen years colonization experience with the Company.

### Parliament To Open February Twentieth

By-Elections Will Then Be Over Before Session Starts

Ottawa.—Parliament will open on Thursday, February 20, or about two weeks later than the opening date of the opening, at the conclusion of a long cabinet meeting, Premier Mackenzie King pointed out that by-elections were pending in three constituencies and that it was desirable to have them over before the session commenced.

The three constituencies in which by-elections are to be held are Bagot, Chateaugay-Huntingdon, and Bandon. In the latter constituency, where Hon. T. A. Crerar, Minister of Railways and Canals, is seeking election the contest is set for February 12, while in the two other constituencies the date is earlier. Consequently, it may be possible to have the three successful candidates in the House on the opening day.

### Retiring Ambassador Will Visit Canada

Sir Esmé Howard To Spend Few Days In Dominion

Washington.—Before his retirement from the diplomatic service about the third week in February, Sir Esmé Howard, British ambassador to the United States, will pay a visit to Canada to say goodbye.

Sir Esmé Howard and Lady Isabella will spend the last few days of January in the Dominion, visiting Montreal, Toronto, and Ottawa. In the Canadian capital they will be the guests of their Excellencies the Governor-General and Lady Willingdon, at Government House. On January 26 the ambassador will dine with the Canadian Club, at Ottawa.

### UNDER THE PALMS

His Excellency Viscount Willingdon, Governor-General of Canada, under the palms at Dominica, British West Indies, with Lady Willingdon, aboard a cruise of the West Indies on the ship "Windsor" which the Canadian National Steamships have in service between Eastern Canada and the West Indies.

### Will Sound Public Opinion

Premier Anderson Considers Natural Resources Question Most Important Problem Facing Saskatchewan

Saskatoon.—Before replying finally to the offer of the Dominion government to transfer the resources to the province, the government of Saskatchewan proposes to ascertain to a considerable extent the exact state of public sentiment in the province. Dr. J. T. Anderson told a board of trade gathering at luncheon here.

One delegation, he said, had already been interviewed on the subject and another would be seen very shortly.

It was the most important problem facing the province at the moment, he declared, and he held the view that the consensus of opinion of the citizens generally should be ascertained in order that the attitude taken in the reply which would be made, would be representative of the general sentiment in the province.

### Pass Canadian Medical Test

Group Of Mennonites May Come To Canada Shortly

Berlin.—"I only wish it were true," was the comment of Dr. Traub, deputy Mennonite refugee commissioner, when asked regarding a report that 3,000 Mennonites are to be sent to Canada and Mexico immediately.

Actually only 137, composed of 30 families and five single men, so far have passed the rigorous medical examination of the Canadian Pacific physician, Dr. S. Gardner.

A cable has already been sent to Ottawa for permission to allow 300 to depart for Canada as soon as the Canadian Federal Immigration doctor at Hamburg confirms the medical tests of Dr. Gardner. The first group will likely leave late in January.

### U. F. M. WILL STUDY FORM OF CROP INSURANCE

Brandon.—Insurance against agricultural life as a means of remedying the farmers' financial condition is to be investigated by the directors of the United Farmers of Manitoba. The annual convention voted to instruct its board of directors to probe the feasibility of crop insurance and similar protection.

Co-operation of the United Farmers of Alberta, and of the United Farmers of Canada, Saskatchewan section, will be sought in the resolution. In the resolution approved by the farm meeting it was requested that a report be submitted at the next annual session.

"Every other type of business is able to obtain insurance," stated John Arnott, of Roblin, sponsor of the resolution, "and none is in greater need of protection than agriculture. Uncontrollable weather and crop conditions have caused the present financial straits among farmers. Crop insurance as such is available now, is entirely inadequate as a means of assuring the farmer of a living."

Reorganization of agriculture is the present day need of Manitoba, commented Hon. T. A. Crerar, Dominion Minister of Railways, speaking recently before the annual convention of the United Farmers of Manitoba. Diversified farm operations, he considered, offered the solution for the province's farm problem.

In his first public speech as a minister entering into politics as a minister in the Mackenzie King cabinet, the former Progressive leader made no reference to political affairs. Mr. Crerar outlined the progress of the United Farmers of Manitoba since organization in 1903. He referred to the fight for changes in the Canada Grain Act, reductions in tariff and creation of marketing organizations.

"There never was a time when the United Farmers of Manitoba was so necessary as it is today," remarked Mr. Crerar, referring to the opinion of those who considered that the provincial body should be discontinued.

He thought the United Farmers might investigate the advisability of diversified farming development and stress the value of education, a matter of supreme importance in rural life. Such objects he considered as vital securing better means of credit, more favorable freight rates and lower taxes.

"Canada is stepping into the arena of public affairs," the minister of railways mentioned. "On Canadians today rests the responsibility of laying the foundations of equity, justice and right. I know of no organization which can better fulfill the duties in the province than the United Farmers of Manitoba."

## NAVAL POLICY OF BRITISH PREMIER CAUSES CONCERN

London, Eng.—A certain amount of uneasiness is expressed in some of the newspaper editorials with regard to Premier Ramsay MacDonald's statement on leaving Portsmouth for London.

"Britain, with the full consent of the admiralty up to now, is prepared to make proposals which will mean considerable reduction in the naval program without in any degree impairing the security of the empire."

The Morning Post says: "The country still is in the dark as to what the proposals are," and adds, "while Premier MacDonald claims to be an exponent of new diplomacy, his methods have been at least as secretive as the old."

The Daily Telegraph states: "It must be said that the temper of Mr. MacDonald now discloses and confirms too well an apprehension on that has long been entertained. Does he approach the conference with a clear resolution that the country's and the Empire's naval necessities shall be in no way compromised by any forthcoming agreement? Or is he deterred—and the tone of his new statement confirms the fear—is the prime minister's intention to justify his own optimism by producing the result of the conference, a naval agreement by hook or by crook, and will not be deterred if it is found attainable only through the reckless sacrifice of British naval interests."

### Will Introduce Radio Bill

Measure Will Be Discussed At Forthcoming Session Of Parliament

Ottawa.—A bill will be introduced into parliament at the coming session, as a result of the report of the Radio Commission. It will likely be referred to a special committee of the House of Commons before which all interested parties would be given an opportunity of expressing their views.

Hon. P. J. A. Campbell, Minister of Marine and Fisheries, whose department is responsible for radio matters, made this announcement recently. The question will be before cabinet next week when a final decision will be arrived at as to the bill.

"My only desire and the only desire of the government is to provide legislation with respect to radio that will place the property of the people of Canada," Mr. Campbell asserted. The minister explained that radio was a very difficult matter on which to legislate.

He was most anxious to get the concerted public opinion and accordingly the committee would like to welcome views from every quarter. Amendments to the bill proposed by the committee would be given consideration favoring radio broadcasting because the object was to get an act that would best serve the public.

The radio commission headed by Sir John Alderdice during the summer brought in a report favoring radio broadcasting being placed in the hands of a national company owned by the Dominion and on which the various provinces would be represented.

### Date Subject To Change

But Prairie Air Mail Likely To Start February Third

Ottawa.—Officials of the post office department have tentatively set the date of the inaugural of the prairie air mail service on February 3.

Indications at present are that the first flight between Winnipeg and Calgary will be made on that date, but it is pointed out that everything depends on the complete installation of beacons over the route.

Considerable delay has already been caused through a shortage in the supply of aircraft. The post office, officials see the possibility of a further holdup. The route cannot be opened until installation of lighting equipment is completed, as most of the flying will be done at night.

Court House For Saskatoon

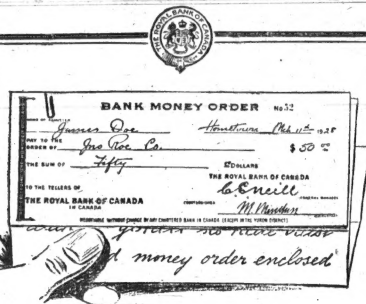

Saskatoon.—Saskatoon is to take the first step in asking the provincial government for the erection of a court house at Saskatoon. The matter came under discussion at the council meeting held here last week, and is to bring the matter to the attention of the government.

Shipments Reduced

Washington, D.C.—Official Canadian reports available at the treasury showed that exports of alcoholic beverages from Canada to the United States, for November, amounted to 295,456 gallons, a decrease of 225,416 as compared with November of 1928.

## Local and General Items

Bellevue defeated Coleman on Tuesday night by a five-to-four score.

A man with a well balanced mind doesn't have to part his hair in the middle.

Mr. Robert Gray returned this morning from a business trip to Calgary.

The officers of the local L.O.O.F. and Rebekah lodges will be installed tonight.

Bellevue and Blairmore will meet in a league fixture at the local arena tomorrow night.

Mr. Frank Leary, vice-president of the Mine Workers Union of Canada, is in town from Calgary.

High River will play the return game at Blairmore on the night of Monday, February the 3rd.

Don't fail to see the Two Blue Crows at the Orpheum, Thursday, Friday and Saturday.

Eight curling sheets have been in operation at the arena since Monday morning and still going strong.

Coming, the funniest man on the screen, in "The Sap." So come big and small, for the love of laughs.

Owing to the bonspiel, the regular meeting of the town council scheduled for Monday night last, was postponed till Monday next.

Since the curlers' banquet, some of the young ladies are desirous of knowing whether or not "Doc" Gillespie is a single man.

E. D. Battrum, official auditor, of Calgary, is in town making the annual audit of the Town of Blairmore and Blairmore School District.

BRUNSWICK GRAMAPHONE with 100 records, and a Chesterfield Bed for sale at reasonable price. Apply to Mrs. F. McLaren. - Jan-16

Referring to a party given at Okotoks recently, the local paper refers to special punishment being meted out by that Scotch instrument of torture, the bagpipes.

Blairmore had a good enough team to trim High River in the Allan cup playdowns last spring, but they passed up too many chances in front of the nets.-Calgary Albertan.

Local folks were disappointed last evening at the non-arrival of the Pincher Creek dog teams. Owing to the severe weather it was decided to simply cover an eighteen-mile course near Pincher.

See and hear Moran and Mack, the Two Black Crows, in "Why Bring That Up," a dazzling smash hit of today. Roars, girls, romance, laughter galore! Whatever you do, don't miss it!

Sherwood Herchmger and Milt Kestner, of Fernie, who are skipping rinks in the district bonspiel, have the distinction of being the only two to take part in the twenty consecutive years these district 'spiels have been in progress, and as skips at that. Herchmger has also taken in the Winnipeg bonspiel twice, once with Kestner on his rink.

The Crows' Nest Pass bonspiel is now in progress. It is one of the big events of the winter when good fellows get together. Curling, hockey and other games which bring communities into friendly rivalry are good for us all. They add to the spice of life and help to make it really worth living.-Lethbridge Herald.
